

## MEMORANDUM OF UNDERSTANDING

Between

LEARN & WIL

&

THE ADR INITIATIVE LLP (ADRI)

Legal Education and Research Network (LEARN), is a capacity building network to bridge the gaps between legal education and practice. Women In Law is an initiative of LEARN that works for equality of opportunity in the legal profession and justice sector. Both projects have flourished under the hard work and dedication of their founder, Nida Usman Chaudhry who has been working tirelessly to improve the scope of education and access to justice for women in Pakistan along with her able team of advisors, chapter leads, volunteers and fellow women in law.

In light of the same, they have recognized and acknowledged the efforts of The ADR Initiative LLP for revolutionizing and modernizing the realm of Dispute Resolution, bringing it out of the dark in Pakistan. LEARN and WIL feels a similar kinship with The ADR Initiative LLP and feels that together the two entities can accomplish their mutual objectives of improving the status quo and modernizing dispute resolution in their areas.

Thereby, in cognizance of their responsibility towards improving professional legal education and bringing more modern dispute resolution practices to the industry, with greater gender diversity, working for the sustainable future of Pakistan, LEARN and WIL, and The ADR Initiative LLP understand the potential to collaborate for providing world-class training and dispute resolution services with a gender lens and to which end they may work together.

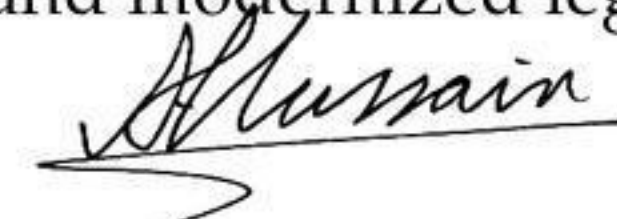

They do this with the hope that Pakistan will soon become a shining beacon of enlightenment and prosperity wherein mindsets evolve so that the justice system, already burdened with a large backlog of cases, may accomplish its noble goals with the support of a diverse and modernized legal industry.
