INTRODUCTION TO THE ARBITRATION COURSE

This programme provides you with practical training on arbitration. Our programme is written and delivered by our pool of global experts who have decades of alternative dispute resolution experience.

Successful completion of the programme will allow you to gain a certification in Foundation in Arbitration and start your options into our arbitration pathways. Most local and long-distance LL.B programmes in Pakistan do not provide training in Arbitration even though it is one of the most lucrative fields. This course is developed keeping in mind the local ADR landscape and the laws of Pakistan as well as the international market. It is developed for students and professionals who are stepping into the world of Arbitration.

The course aims to help you to understand:

- What is Arbitration?
- Process of Arbitration
- Laws and Rules in Arbitration
- Modalities in International Arbitration and Domestic Arbitration
- Basics of arbitration agreement
- Basics of Arbitration Awards

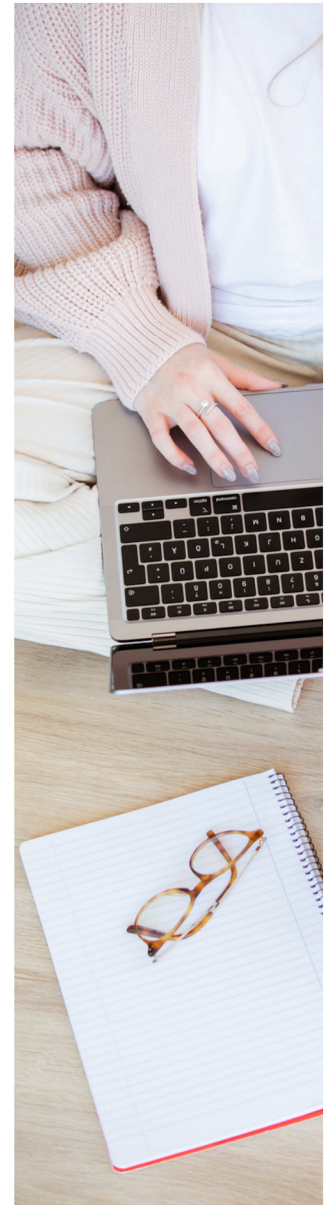

This course is a skills-based module as we believe that people learn best by practicing arbitration skills through practical learning. During your training you will have lectures, role plays on arbitration, and other teaching tools to equip you with the practice of arbitration. Tutors are available to you throughout the programme to discuss any aspect of the course.
